SUMMARY / ABOUT ME

Self-taught Full-Stack Developer with 5+ years of independent, project-driven experience spanning the MERN stack, FARM stack (FastAPI, React, MongoDB), TypeScript, Python, and PHP. Built and shipped real, production-style applications — booking platforms, AI-powered tools, real-time chat apps, and e-commerce sites — entirely through self-directed learning, without a formal computer science background. Comfortable owning a project end-to-end: system architecture, REST API design, database modeling, authentication, and deployment. Adaptable across both JavaScript and Python ecosystems, with a track record of turning ideas into working, deployed products and a genuine passion for learning by building.

FEATURED PROJECTS

Allbizzent Entertainment — Music Promotion Platform | *CSS3, React.js, Node.js, Express.js, MongoDB*

Full-stack music promotion system and stripe payments for customers along with admin panel.

[\[Live Demo\]](#) [\[GitHub\]](#)

Eliteguard Car Care LLC — Online Tinting Service For UAE | *CSS3, React.js, PHP, MySQL, HPanel*

Full-stack tinting service booking system for UAE — car, appointments and payments for customers.

[\[Live Demo\]](#) [\[GitHub\]](#)

VeriSight AI — Synthetic Media Detection Tool | *TypeScript, Node.js, Vision-Language APIs*

AI tool to flag deepfakes and AI-generated text in real time, exploring multimodal AI applications.

[\[Live Demo\]](#) [\[GitHub\]](#)

Mini Facebook Clone — Social media clone using mern stack | *CSS3, MERN Stack, WebSocket*

Responsive storefront demo with real time social media system and mobile-friendly UI.

SKILLS & TECHNICAL STACK

Languages : JavaScript (ES6+), TypeScript, Python, PHP, Bash

Front-End : React, HTML5, CSS3, Bootstrap, Tailwind CSS

Back-End : Node.js, Express.js, PHP, Python, Flask, FastAPI, REST APIs, JWT Auth

Databases / Storage : MongoDB, MySQL, JSON, XML

Deployment & Tools : Git, GitHub, CI/CD, Linux, Vercel, Netlify, Render

EXPERIENCE

Freelance Full-Stack Web Developer — *Self-Employed / Freelance / Remote* | 2021 – Present

- Built and deployed full-stack web applications end-to-end — from backend architecture and REST API development (Node.js, Express, FastAPI) to database design with MongoDB and MySQL — for domestic and international clients.
- Developed responsive, cross-browser-compatible front-end interfaces using React, TypeScript, HTML5, CSS3, and Tailwind CSS, ensuring clean UI/UX and smooth performance across devices.
- Managed complete deployment pipelines using Git/GitHub, Vercel, Netlify, and Render, along with real-time features via WebSockets and secure JWT-based authentication.

EDUCATION

Secondary School Certificate (SSC), Science — *Madhabpur High School, 2014–2019*

Higher Secondary Certificate (HSC BM), Business Studies — *Komolganj Govt. College, 2020–2022*

Note : Also completed two years of a Bachelor's (Honours) program in English at **Shreemongol Govt. College** before choosing to leave formal study and pursue software development full-time. All technical skills were self-taught through structured, independent study — using resources like W3Schools and TutorialsPoint alongside official documentation — combined with hands-on practice building real projects.

LANGUAGES

English (Professional working proficiency) • Bangla (Native) • Hindi (Conversational)
